PROJECT TITLE

A digital portfolio showcases work, skills, and accomplishments through various digital media like images, videos, and documents. It demonstates expertise and progress, often used for professional or academic purposes, and is easily accessible online.

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM STATEMENT

A problem statement clearly defines an issue to be addressed, outlining its key aspects, impact, and goals for resolution, serving as a guide for finding solutions.

PROJECT OVERVIEW

"Designing a digital platform to showcase and promote traditional Indian saree designs, empowering artisans and preserving cultural heritage through technology and innovation."

POTFOLIO DESIGN AND LAYOUT

Portfolio design and layout involve creatively organizing and presenting work samples, projects, and achievements in a visually appealing and coherent manner to effectively showcase skills, experience, and style.

FEATURES AND FUNCTIONALITY

Features refer to the specific characteristics or elements of a product, system, or service, while functionality describes the capabilities and operations that these features enable, determining how well they meet user needs.

WHO ARE THE END USERS?

Saree enthusiasts, fashion designers, artisans, small business owners, and consumers interested in traditional Indian clothing.

RESULTS AND SCREENSHOTS

The digital platform showcases vibrant saree designs, artisan stories, and elegant visuals, with user-friendly navigation and high-quality images, providing an immersive experience for users

CONCLUSION

The project successfully preserves and promotes India's rich saree heritage, empowering artisans and connecting them with a global audience through a user-friendly digital platform
